

How to Find the Proper Fit

Measurements should be taken close to the body, not over loose clothes. Use a flexible measuring tape and perform the following measurements:

- Chest:** Measure at the fullest part of the chest or bust
- Waist:** Measure circumference at the narrowest part
- Hips:** Measure at the fullest point, standing with feet together
- Inseam:** Measure from Crotch to floor
- Height:** Measure from crown to floor

- Speedsuits:** Use Aero Size Chart
- Warmers:** Use your jersey or bib sizing as reference
- Base Layer & Nordic:** Use Fitted size chart

If in doubt, or in between sizes, SIZE UP!

Men's Aero Cut

Aero = Ultimate performance, extremely tight fitting for aero effect, and is perfect for top fitness athletes
